

# MUHAMMAD AYAAN SHAIKH

## Full-Stack Software Developer

Full-stack Software Developer with 2+ years of experience building scalable web applications using React, Node, and Express. Proven ability to design performant APIs, build responsive UIs, and optimize backend systems. Passionate about clean code, problem-solving, and delivering impactful features in fast-paced environments.

## WORK EXPERIENCE

### Prosoft E-solutions India Pvt Ltd

May 2024 - Present

Software Developer

Karnataka, India

- Built a Node.js + WhatsApp Cloud API chatbot handling 10K+ messages/month with SDR and ASN lookup.
- Developed a secure web admin panel for bot configuration and role-based access control.
- Migrated a legacy app to a React + Node stack with multilingual support, improving UX by 60%.
- Implemented drag-and-drop of source columns to its respective destination column in manual column mapping module.
- Boosted performance by 40% by parallel processing for importing files and maintain states using Tanstack React Query and optimized uploads with express-fileupload.
- Developed a scalable data import module for TXT/CSV/EXCEL.

### CodeArray Technologies Pvt Ltd

Jun 2023 - May 2024

Associate Software Engineer

Mumbai, India

- Implemented a role-based login system with React.js and Redux Toolkit.
- Designed an appointment workflow with physician availability settings.
- Built responsive, paginated tables for improved usability.
- Developed a theme-based color selection feature for user login.

Enhanced order processing using advanced Redux Toolkit techniques.

## PROJECTS

### Career Compass

- Developed a full-stack app for managing job applications.
- Features status tracking, reminders, and follow-ups to enhance the job search.

### Cupid User Panel

- Developed a user-friendly front-end panel for seamless product browsing, ordering, and account management.

### Cupid Admin Panel

- Developed a custom e-commerce jewelry store with a responsive full-stack admin panel for managing products and orders.
