📁 WORK EXPERIENCE

Godrej Infotech Ltd.

Dec 2025 – Present | Mumbai

Assistant Manager

- Led the migration of a serverless backend with **3 AWS Lambda functions, 3 EventBridge scheduled jobs, and 86+ API endpoints** to **AWS CDK**, implementing infrastructure as code and CI/CD-based deployments.
- Developed a **Dropdown Master module** for the Welding System (SRF 5), migrating **30+ hardcoded dropdown fields** to dynamically managed values fetched from **DynamoDB**, eliminating manual code changes for dropdown updates.
- Built a **public REST API** using **Amazon API Gateway** for DGFT EBRC integration, enabling **JSON file uploads** to Amazon S3 for downstream Power BI and Power Automate workflows.
- Implemented **token-based concurrent session control** in the CCM project by storing user ID and session tokens, validating active sessions, and preventing multiple simultaneous logins for the same user.

Prosoft E-Solutions India Pvt. Ltd.

May 2024 – Dec 2025 | Belgaum

Software Developer

- Engineered a scalable **WhatsApp Cloud API** chatbot platform handling **10K+ monthly messages** with RBAC-based authentication and administrative controls.
- Modernized the C5 Cat Analyzer by migrating a legacy application to **React.js** with **multilingual support**, improving maintainability and user experience.
- Optimized high-volume file imports using **parallel processing and TanStack Query**, reducing **processing time by 40%** through client-side optimization and validation mechanisms.

CodeArray Technologies Pvt. Ltd.

Jun 2023 – May 2024 | Mumbai

Associate Software Engineer

- Developed **RBAC-enabled modules** for Clinicsoft and EZ Order using **Next.js**, Redux Toolkit, and REST APIs.
- Built the **EZ Order Admin Panel** and optimized order processing workflows, improving state management, scalability, and application performance.

📁 PROJECTS

Career Compass 🔗

AI-Powered Career Management Platform

- Built and deployed a **serverless career platform** using React.js, Node.js, **AWS Lambda, DynamoDB, and S3**, with secure document storage via pre-signed URLs.
- Developed an **AI ATS Resume Analyzer** using **Gemini Flash API** with custom PDF/DOCX parsing to evaluate resumes against job descriptions.
- Implemented **JWT authentication**, bcrypt password hashing, and **API rate limiting**, securing REST APIs and user account workflows.
- Integrated **Razorpay subscriptions and webhooks**, with **AWS EventBridge Scheduler** automating monthly resume-analysis credit resets.

🧠 SKILLS

Frontend/Frameworks

- React.js, Next.js, JavaScript, TypeScript, Redux Toolkit, TanStack React Query

Backend & Databases

- Node.js, Express.js, REST APIs, PostgreSQL, DynamoDB

AWS/Cloud

- Lambda, API Gateway, S3, IAM, EventBridge, Amplify, Route 53, AWS CDK, AWS CLI

AI & Integrations

- Google Gemini API, WhatsApp Cloud API, Razorpay API, Power BI, Power Automate

Tools/DevOps

- Git, GitHub, CI/CD

🎓 EDUCATION

B.E. in Computer Engineering,

Rizvi College of Engineering

Aug 2019 – May 2023 | Bandra, Mumbai

📜 CERTIFICATION

- **Executive PG Certification in Full Stack Development** — from Intellipaat

🏆 ACHIEVEMENTS

- **Solved 150+ coding problems** across multiple competitive programming platforms.
